

## Go Baby Go “Implied Warranty” Policy

**Once a car has been modified, the manufacturers warranty will be void. We propose the following “warranty” be available for the cars:**

1. Modifications that the Adaptive Sports Connection makes to the car will be guaranteed for the life of the vehicle. We will repair at no cost to family, any repair needed on modifications made by the Adaptive Sports Connection, e.g., switch that fails, bolt that falls off, PVC pipe connection that fails, etc.
2. The Adaptive Sports Connection will repair anything that would have been covered under the manufacturers warranty for the duration of the original manufacturers warranty.
3. Beyond the manufacturers warranty period, if we provided the car to a child through a scholarship, we’ll fix the car. If the parent bought the car, but the cost of the repair is more than \$25.00, the parent will pay for the parts at cost and we will provide the labor at no charge.

The Warranty Policy stated above, does not cover damage that has occurred from neglect of the car (e.g., leaving the car outdoors in rain, snow, etc. ) abuse of the car, (e.g., climbing, standing on car), use of the car by any other child than for whom the car was recommended, and use of the car without a parent’s direct supervision.
